The rock wall of the cavern slides across slowly with a rumble, revealing a rough wooden ladder. You ascend carefully, and find yourself back in the gnome's abode.

You find the gnome hunched over a strange (presumably magical) device, upon which some kind of map is displayed. You notice him twiddling a dial from "fine" to "coarse", and wonder if he is deliberately masking some detail in the map. He creates a copy on parchment, then turns to you, handing you the map. He beckons you to follow as he dashes to his stables, and, eschewing unicorns and pegasi, selects for you a mere horse to take you to your destination.
